### EDUCATION

B.S.

Computer Science

University of Pittsburgh

September 2017 - May 2021

Pittsburgh, PA

GPA: 3.91

*Presidential Scholarship*

*Cum Laude Society*

*Dean's List (5/8 semesters)*

### RELEVANT COURSES

Data Structures

Algorithm Design

Database Management

Systems

Computer Vision

Software Design Methodology

### SKILLS

Advanced: Java, Unix, Git

Familiar: Swift, SQL, HTML/CSS

### CAREER OBJECTIVE

Industrious recent computer science graduate with a zeal for innovation. Seeking a position at Sikka Software, where the strategic focus on delighting users aligns with my creativity and desire to enhance social events through technology.

### PROJECTS

#### Party Playlist Votes

Creator

- Built a native mobile app for Android and iOS that allows a party host to invite party attendees to vote on event music, which reduced decision times by 45 minutes on average
- Started with a mobile app for Android, and then learned Swift to port it to iOS
- Utilized the Spotify API, and built an interactive, real-time voting function on top of it
- Used Swift, Java, SQL, HTML/CSS in creation and maintenance, implementing user feedback

#### Student Coder Group

Mentor

September 2018 - May 2021

- Mentored 13 incoming computer science freshmen, providing guidance on challenging classes and performing code review for their first CS projects
- Collaborated with fourth-year CS students to organize networking events for connecting with local developers

#### University of Pittsburgh Soccer

Captain

September 2017 - May 2021

- Communicated practices and events to team, working in partnership with coaches to streamline team information
- Led initiative to mentor and coach local youth soccer teams in the community for 12 hours each summer month
